## **MEMORANDUM:**

To: All Prospective Bidders

From: Administrator of the Courts

Subject: **Amendment No. 2**  
**Re: IFB 24-04; CISCO Switch and Router**

The following are responses to questions submitted to my office:

1. What kind of switches do you currently have in place?  
**Response: Cisco C92xx Series.**
2. What will be connecting to this switch?  
**Response: Another switch, desktops/laptops, servers, printers, firewall, and router.**
3. Why are you replacing your current switch?  
**Response: Broken switch.**
4. How many ports do you need?  
**Response: 24- and 48-ports.**
5. What speed will the ports be using?  
**Response: 1GB (RJ45) and 10GB (SFP).**
6. What layer 3 features will you need?  
**Response: All Cisco Layer 3 features.**
7. How many of these switches do you need?  
**Response: 5.**
8. Will this be used indoors or outdoors?  
**Response: Indoors.**
9. Do you know if you need POE or POE++?  
**Response: POE and POE++ are not needed.**

## 10. For the C9500-16X-A:

Are you asking to include the additional 8-port 10GB Networking Module, Cisco PN# C9500-NM-8X, to increase the port count to 24 10Gb ports on the C9500-16-A?

**Response: No. The additional 8-port 10GB Networking Modules are spare**

The request for Catalyst 9200 Stack Module and Cisco Catalyst 9200L Stack Module, is this for a different switch other than the C9500-16X-A?

**Response: The C9200 and C9200L Stack Modules are for C9200 switches**

If the request for stacking is for the single C9500, this family utilizes Cisco StackWise Virtual enablement which relies on connecting the member switches over standard 10Gb/40Gb networking connections and does not require any dedicated stacking hardware to function.

**Response: We require the stacking module kit to provide us a dedicated 80GB/160Gb speed bandwidth between switches located in the same IDF and to free any SFP 10GB ports for uplink to other IDF's**

## 11. Will you be needing any Cisco 10GBase-SR SFP+ Transceiver - 1 x 10GBase-SR? If so, qty?

**Response: Yes. 16**

## 12. We understand that your expected delivery time is 60 days from issuance of Notice to Proceed. However, due to the requirement of SmartNet for both models, which necessitates a reorder from the manufacturer, items lead time extends to approximately 8-10 weeks not including the transit time to Guam which takes about 30-45 days ETA to Guam via ocean freight. In consideration of this, may we ask if you could accept 120 days delivery time?

**Response: The delivery date is changed from 60 days to 90 days from issuance date of a Purchase Order.**
